### Cargo and passenger turnover for January- November 2023

	as a percentage	
	Cargo turnover	Passenger turnover
<b>Republic of Kazakhstan</b>	103.1	111.2
Abay	90.7	88.1
Akmola	86.7	84.2
Aktobe	104.4	101.2
Almaty	96.6	108.1
Atyrau	96.4	130.6
Batys Kazakhstan	112.7	90.2
Zhambyl	96.3	89.3
Zhetisu	93.4	94.6
Karaganda	106.8	94.2
Kostanai	101.5	105.9
Kyzylorda	108.6	111.4
Mangystau	98.6	100.4
Pavlodar	129.0	95.6
Soltustik Kazakhstan	113.5	119.8
Turkistan	95.8	117.6
Ulytau	99.4	91.5
Shygys Kazakhstan	100.4	126.4
Astana city	114.5	116.1
Almaty city	125.2	129.3
Shymkent city	129.1	109.6

#### Railway transport

In January-November 2023, 380.6 million tons of cargo were transported by rail in the republic. which is 2.2% more than the level of January-November 2022, cargo turnover during this period amounted to 299.3 billion. t-km (increased by 4.9% compared to January-November 2022), 18.2 million tons were transported.passengers (1.8% more than in January-November 2022), passenger turnover amounted to 14.9 billion p-km (decreased by 1.6% compared to January-November 2022).

#### Automobile and urban electric transport\*

In January-November 2023, compared to the same period last year. there was an increase in cargo transportation and cargo turnover of road transport by 10.1% and 0.9%, respectively. Passenger transportation and passenger transportation also increased by 8.6% and 4.3%. respectively.

#### Pipeline transport

In January-November 2023, 250.8 million tons of cargo were transported (0.6% more than in January-November 2022), cargo turnover amounted to 131.3 billion. t-km (decreased by 0.4% compared to January-November 2022).

#### Air transport

In January-November 2023, 12.3 million passengers were transported by air transport of the republic (increased by 23.3% compared to January-November 2022), passenger turnover amounted to 23.9 billion p-km (increased by 32.1% compared to January-November 2022).

#### Inland waterway transport

In January-November 2023, 754.2 thousand tons of cargo were transported by inland waterway (increased by 11.4 compared to January-November 2022), 121.1 thousand passengers were transported (decreased by 15.4 compared to January-November 2022).

#### Marine and coastal transport

In January-November 2023, 1173.8 thousand tons of cargo were transported by sea, there is an increase in cargo transportation by 8.6% compared to January-November 2022, cargo turnover amounted to 726.2 million tons-km and increased by 16.2% compared to January-November 2022.

*\*Statistical data on the transport industry since January 2023 have been formed taking into account changes in the methodological approach to the formation of indicators of the activities of individual entrepreneurs engaged in commercial transportation of goods and passengers by road transport. In order to obtain comparable data with the same period last year. the main indicators of the Transport industry for 2022 have been reformed.*

### **3. Glossary**

Transported cargo – the amount of cargo in tons transported by transport.

Cargo turnover of transport – the volume of work of transport for the transportation of goods, expressed in ton-kilometers. It is defined as the sum of the products of the weight of each batch (shipment) of the transported cargo over the distance of its transportation.

Transported passengers – the number of passengers transported over a certain period of time. The unit of observation in passenger transportation statistics is a passenger-trip.

Passenger turnover of transport – the volume of work of transport for the transportation of passengers. The unit of measurement is the passenger-kilometer, i.e. the movement of 1 passenger over a distance of 1 kilometer. It is determined by summing the products of the number of passengers of each carriage by the distance of carriage in kilometers.

The physical volume index - is a relative indicator that characterizes the change in the quantitative volumes of freight and passenger traffic in the reporting period compared to the base period and is calculated on the basis of the weighted average growth rate of revenue from the transportation of goods and passengers.

### **4. Methodological explanations**

The release provides statistical data on the work of enterprises with the main type of activity - transport (OKED code 49-51), reporting on the monthly form 1-transport, enterprises of other sectors of the economy engaged in the transportation of passengers and cargo on a commercial basis, as well as individual entrepreneurs engaged in the transportation of goods and passengers by road on a commercial basis, reporting according to quarterly forms: 1-sole proprietor (auto cargo), 1-sole proprietor (auto passengers).
