**Conventional symbols:**

EurAsEc – Eurasian Economic Community

EU – European Union

DPRK – Democratic People's Republic of Korea

UAE – United Arab Emirates

CIS – Commonwealth of Independent States

CNFEACU – Commodity Nomenclature of Foreign Economic Activity of the Customs Union

USA – United States of America

0,0 – phenomenon has occurred but its value is not rounded to the appropriate measurement unit;

« - » – phenomenon is absent;

«...» – statistical data are absent

In separate cases slight discrepancies between total and sum of items are explained by rounding of data.

## **Foreword**

Statistical collection «Foreign trade of the Republic of Kazakhstan» is a systematized publication of the Committee on Statistics of the Ministry of National Economy of the Republic of Kazakhstan characterizing the development of the foreign trade and the Republican enterprises with the foreign participation in 2009-2013.

Statistical information is presented in convenient analytical sections, groupings describing the most important trends in the development of foreign trade and joint enterprises in Kazakhstan. Correspondence of methodological approaches to the international standards and requirements allows to apply statistical data for the purpose of comparative analysis of economic phenomenon the sphere of foreign economic activity in Kazakhstan.

The given publication provides data on the foreign trade statistics excluding non-organized trade over the period of 2009-2013 as well as data presented by the departmental and national statistical surveys of mutual trade.

The collection contains information in the following sections:

- Foreign merchandise trade;
- Mutual trade of the Customs Union;
- Activities of enterprises with the foreign capital participation.

Authorized capital of operating enterprises with the foreign capital participation by countries-foreign partners in 2013.....	90

# FOREIGN MERCHANDISE TRADE

## Methodological explanations for the section «Foreign merchandise trade»

The given publication provides data on the foreign merchandise trade statistics **excluding non-organized trade** obtained on the basis of processing goods declarations and statistical forms in 2009-2013.

The main indicators taken into account in the foreign trade statistics are:

«**Foreign trade of the Customs Union**» is a trade between the states-members of the Customs Union with the third countries;

«**Mutual trade of the Customs Union**» is a trade between the states-members of the Customs Union;

«**Merchandise exports**» is an export from the territory of the state - a member of the Customs Union of goods that reduce the stock of material resources of the state - a member of the Customs Union;

«**Merchandise imports**» is an import into the territory of the state - a member of the Customs Union of goods that are added to the stock of material resources of the state - a member of the Customs Union.

Customs statistics of our Republic keeps records of imports and exports of goods on the basis of the “common” foreign trade accounting system, which takes into consideration all the goods entering the borders of the national territory of the country or leaving them. In this case the state border is the border of the country’s statistical territory.

**Exports** include: goods exported from the territory of the state and placed under the customs procedure of export; goods exported from the territory of the state after the completion of the customs processing procedure on the customs territory; goods exported from the territory of the state after the completion of the customs processing procedure for the domestic consumption; goods exported from the territory of the state and placed under the customs processing procedure outside the customs territory; goods exported from the territory of the state and placed under the customs procedure of re-export; goods exported from the territory of the state and placed under the customs procedure of free trade and sold to individuals leaving the territory of the state; goods exported from the territory of the state and placed under the customs procedure of temporary export for a period of one year or more; goods exported from the territory of the state after the completion of the customs procedure of free warehouse; goods exported from the territory of the state after the completion of the customs procedure of free customs zone.

The main integral components of **imports** are: goods imported into the territory of the state and placed under the customs production procedure for the domestic consumption; goods imported into the territory of the state and placed under the customs procedure of re-import; goods imported into the territory of the state and placed under the customs processing procedure on the customs territory; goods imported into the territory of the state after the completion of the customs processing procedure outside the customs territory; goods imported into the territory of the state and placed under the customs processing procedure for the domestic consumption; goods imported into the territory of the state and placed under the customs procedure of customs warehouse; goods imported into the territory of the state and placed under the customs refusal procedure in favour of the state; goods imported into the territory of the state and placed under the customs procedure of free trade; goods imported into the territory of the state and placed under the customs procedure of temporary import for a period of one year or more; goods imported into the territory of the state and placed under the customs procedure of free customs zone; goods imported into the territory of the state and placed under the customs procedure of free warehouse.

The following options **are not taken into account**: transit through the territory of the state; contemporary import-export for a period of less than one year; destroyed goods; refusal in favour of the state while exporting goods; goods placed in the customs warehouse or free zone and intended for export outside the territory of the state; goods exported from the territory of the customs warehouse and free zone to the territory of the state.

**While importing** into the territory of the state and exporting from this territory **the following goods and types of operation are taken into account** in the foreign trade customs statistics: gold, precious metals, which do not serve as a means of payment; securities, banknotes and coins, which are not in circulation; goods supplied under the state programs of aid as grants, humanitarian and technical assistance; barter; military goods; goods moved under the consignment agreements; import of goods as a contribution to the authorized fund and export of goods produced by enterprises with foreign investments; return of goods; goods sent by mail; goods used as carriers of information and software; goods acquired by all categories of visitors, including non-residents, which exceed the quantity and value standards set by legislation, etc.

**The following goods and operations are not taken into consideration**: goods whose value does not exceed the threshold of statistical observation; currency values, gold, banknotes, which are in circulation; goods purchased by diplomatic missions, armed forces, missions of foreign states on the territory of states for their own need; subscribed periodicals; goods for personal use; goods exported outside the state and intended for the operation of embassies, missions to international organizations and other official representatives of the state abroad; goods supplied in the form of complaint and warranty service; recycling containers; exhibits, etc. The given publication provides data on the foreign

merchandise trade statistics **excluding non-organized trade** obtained on the basis of processing goods declarations and statistical forms in 2009-2013.

The main indicators taken into account in the foreign trade statistics are:

«**Foreign trade of the Customs Union**» is a trade between the states-members of the Customs Union with the third countries;

«**Mutual trade of the Customs Union**» is a trade between the states-members of the Customs Union;

«**Merchandise exports**» is an export from the territory of the state - a member of the Customs Union of goods that reduce the stock of material resources of the state - a member of the Customs Union;

«**Merchandise imports**» is an import into the territory of the state - a member of the Customs Union of goods that are added to the stock of material resources of the state - a member of the Customs Union.

Customs statistics of our Republic keeps records of imports and exports of goods on the basis of the "common" foreign trade accounting system, which takes into consideration all the goods entering the borders of the national territory of the country or leaving them. In this case the state border is the border of the country's statistical territory.

**Exports** include: goods exported from the territory of the state and placed under the customs procedure of export; goods exported from the territory of the state after the completion of the customs processing procedure on the customs territory; goods exported from the territory of the state after the completion of the customs processing procedure for the domestic consumption; goods exported from the territory of the state and placed under the customs processing procedure outside the customs territory; goods exported from the territory of the state and placed under the customs procedure of re-export; goods exported from the territory of the state and placed under the customs procedure of free trade and sold to individuals leaving the territory of the state; goods exported from the territory of the state and placed under the customs procedure of temporary export for a period of one year or more; goods exported from the territory of the state after the completion of the customs procedure of free warehouse; goods exported from the territory of the state after the completion of the customs procedure of free customs zone.

The main integral components of **imports** are: goods imported into the territory of the state and placed under the customs production procedure for the domestic consumption; goods imported into the territory of the state and placed under the customs procedure of re-import; goods imported into the territory of the state and placed under the customs processing procedure on the customs territory; goods imported into the territory of the state after the completion of the customs processing procedure outside the customs territory; goods imported into the territory of the state and placed under the customs processing procedure for the domestic consumption; goods imported into the territory of the state and placed under the customs procedure of customs warehouse; goods imported into the territory of the state and placed under the customs refusal procedure in favour of the state; goods imported into the territory of the state and placed under the customs procedure of free trade; goods imported into the territory of the state and placed under the customs procedure of temporary import for a period of one year or more; goods imported into the territory of the state and placed under the customs procedure of free customs zone; goods imported into the territory of the state and placed under the customs procedure of free warehouse.

The following options **are not taken into account**: transit through the territory of the state; contemporary import-export for a period of less than one year; destroyed goods; refusal in favour of the state while exporting goods; goods placed in the customs warehouse or free zone and intended for export outside the territory of the state; goods exported from the territory of the customs warehouse and free zone to the territory of the state.

**While importing** into the territory of the state and exporting from this territory **the following goods and types of operation are taken into account** in the foreign trade customs statistics: gold, precious metals, which do not serve as a means of payment; securities, banknotes and coins, which are not in circulation; goods supplied under the state programs of aid as grants, humanitarian and technical assistance; barter; military goods; goods moved under the consignment agreements; import of goods as a contribution to the authorized fund and export of goods produced by enterprises with foreign investments; return of goods; goods sent by mail; goods used as carriers of information and software; goods acquired by all categories of visitors, including non-residents, which exceed the quantity and value standards set by legislation, etc.

**The following goods and operations are not taken into consideration**: goods whose value does not exceed the threshold of statistical observation; currency values, gold, banknotes, which are in circulation; goods purchased by diplomatic missions, armed forces, missions of foreign states on the territory of states for their own need; subscribed periodicals; goods for personal use; goods exported outside the state and intended for the operation of embassies, missions to international organizations and other official representatives of the state abroad; goods supplied in the form of complaint and warranty service; recycling containers; exhibits, etc.

### Structure of exports and imports by major trading groups in 2013

#### Proportion of major trading groups in exports

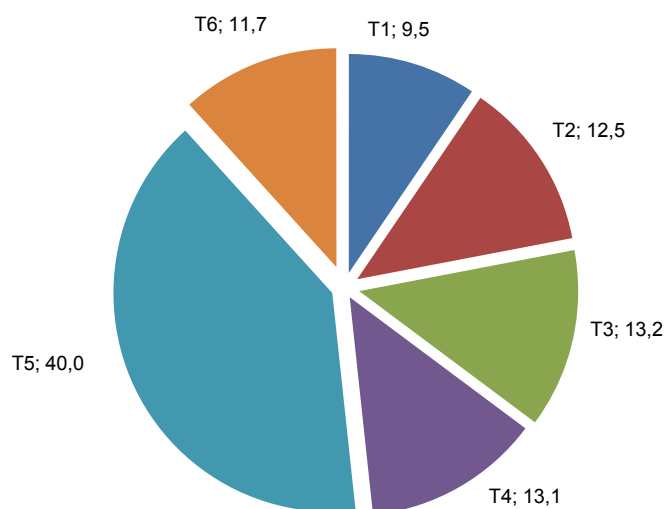

in percent

- T1 - Products of animal and vegetable origin, prepared foodstuffs
- T2 - Mineral products
- T3 - Products of the chemical and related industries (including rubber and plastics)
- T4 - Metals and articles thereof
- T5 - Machinery, equipment, vehicles, appliances, apparatus
- T6 - Others

### Proportion of major trading groups in imports

in percent

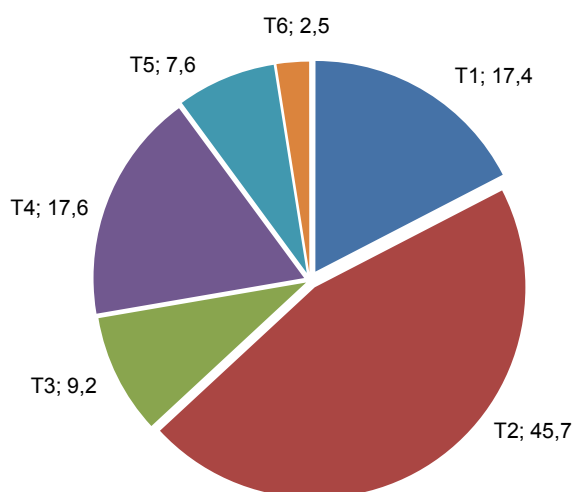

- T1 - Products of animal and vegetable origin, prepared foodstuffs
- T2 - Mineral products
- T3 - Products of the chemical and related industries (including rubber and plastics)
- T4 - Metals and articles thereof
- T5 - Machinery, equipment, vehicles, appliances, apparatus
- T6 - Others

### Structure of exports and imports with the CIS-countries by major trading groups in 2013

#### Proportion of major trading groups in exports with the CIS-countries

### Activities of enterprises with the foreign capital participation

The data presented in the section «Activities of enterprises with the foreign capital participation» are based on the information obtained by processing statistical reporting by enterprises with share holding of foreign investors and by companies wholly owned by foreign investors.

**Authorized capital** is the amount of money invested by the owners to ensure the statutory activity of the organization.

Data on the authorized capital are given at the moment of registration, i.e. volumes recorded in registration documents and actually at the end of the reporting period.

**Exports of goods** is removal from the country of goods for sale at the foreign market, as well as re-exports of goods of foreign origin.

**Imports of goods** is importation from abroad of goods intended for the domestic use and for re-export.

Volumes of exports (imports), along with goods, also include services.

**Domestic sales** are sales of goods and services of own production as well as of goods purchased from other enterprises, organizations and acquired abroad, providing services to organizations, which are on the territory of the Republic of Kazakhstan.

**The volume of the made production (goods and services)** is the value of all finished goods (products) developed by an enterprise, semi-finished goods of its production (obtained from their own raw materials and supplies as well as from those of the customer) intended for the external sales for its capital construction and non-industrial division, for issuance to employees on account of wages, for industrial works and services, which have been ordered.

**Payroll number of workers** is the number of persons admitted under the employment contract, regardless of its term, except for persons performing work under the contracts of civil law nature.

**Wages fund of workers** are total calculated funds of an organization for the payment of workers in cash and in kind (salaries (tariff rates), bonuses, allowances and other incentive and compensatory payments) taking into account taxes and other deductions (income tax, mandatory pension contributions) in accordance with the laws of the Republic of Kazakhstan and regardless of the source of their funding and period of actual payments.

**Fixed capital investments** represent total costs aimed at the creation and reproduction of fixed assets. They include the cost of the construction and repair of buildings and structures, purchase and repair of machinery, equipment and tools, other capital works and expenses.
