Rendered services in the field of providing social services without providing accommodation	8 847 413	14 132 327

## 3. Glossary

The volume of services provided - the cost of services provided by healthcare organizations in the amount of funds that come from enterprises, organizations and (or) directly from the population (households) in payment for the services provided to them and are estimated as the income of the organization, which, in turn, is estimated at the cost of sales received or receivable.

Services - activities aimed at meeting any needs of a person or society as a whole.

Principal activity - a type of activity, the added value of which exceeds the added value of any other type of activity carried out by an economic entity.

Secondary type of activity - a type of activity, in addition to the main one, which is carried out with the aim of producing products (goods and services) for third parties.

## 4. Methodological explanations

The spreadsheets show presents statistical data of organizations with the main activity in the field of healthcare of all forms of ownership, departmental affiliation and size of enterprises providing services in the field of healthcare.

The volume of services rendered in the field of health care and the provision of social services in the Republic of Kazakhstan, as well as the volume of services performed at the expense of budgetary funds and enterprise funds, is reflected without value added tax.

The volume of services paid by the population is indicated in the amount of the amounts actually paid (ie, including VAT).
