3. [Glossary](#)

Sanatorium and resort organizations are organizations providing sanatorium and resort services for the improvement and restoration of human health, using medical and other services, natural healing factors located in resorts or in health-improving areas: sanatorium (for adults, adults and children, children), student sanatorium-preventorium, children's rehabilitation and health center.

The main type of activity is a type of activity whose added value exceeds the added value of any other type of activity carried out by an economic entity.

A secondary type of activity is a type of activity, in addition to the main one, which is carried out for the purpose of producing products (goods and services) for third parties.

4. [Methodological explanations](#)

The spreadsheets present the number of active legal entities, branches and branches of foreign legal entities, according to the current General Classifier of Economic Activities "Activities of Health Resort Organizations", from the Statistical Business Register (hereinafter - IS SBR).

All data was obtained from the information system IS SBR. This system includes information about legal entities registered in the territory of the Republic of Kazakhstan, their structural divisions, as well as individual entrepreneurship entities (hereinafter referred to as entities).

Keeping records in the IS SBR is carried out for entities that have undergone state or accounting registration with the relevant registration authorities of the Republic of Kazakhstan.
