2.Index of prices and tariffs for consumer goods and services by regions for 1993-2025

2. Contribution to the annual rate of inflation

The largest contributions to the annual inflation rate came from food and non-alcoholic beverages (2.9 percentage points), housing services, water, electricity, gas and other fuels, and clothing and footwear (1 percentage point).

Contribution of the main groups of goods to the inflation of the Republic of Kazakhstan

in percentages. increase

Contribution of individual components to annual inflation in the Republic of Kazakhstan in October 2026

in percentages. increase

Goods and services	Rate of increase	Contribution to price growth
Food products	7,6	3,071
Cereals	3,0	0,027
Bread and bakery products	9,0	0,286
Meat and poultry	8,6	0,793
Sausages. meat products	11,2	0,389
Drinking milk	7,8	0,113
Cheese and cottage cheese	8,3	0,149
Dairy products	9,4	0,129
Eggs	9,9	0,122
Oils and fats	7,9	0,179
Fruits. nuts and berries	-2,2	-0,119
Vegetables	2,1	0,025
Sugar	-2,9	-0,027
Soft drinks	10,1	0,193
Non-food products	10,4	2,999
Cloth	11,0	0,655
Shoes	11,1	0,364
Detergents	10,1	0,143
Petrol	8,6	0,296
Goods for personaluse	11,3	0,323
Paid services	10,3	3,129
Housing services. water. electricity. gas and other fuels	11,2	1,042
Maintenance and servicing of housing	7,2	0,038
rental of property	17,4	0,292
Maintenance. repair and securiti of residential premises	12,3	0,151
cold water	-1,7	-0,009
hot water	2,7	0,007
garbage removal	3,3	0,010
drainage	-0,8	-0,001
electricity	7,9	0,116
gas	30,2	0,280
gas. transported through distribution networks	34,8	0,263
liquefied	9,9	0,017
central heating	0,7	0,005
solid fuels	6,1	0,044

payment for the elevator	5,8	0,010
intercom	9,3	0,016

Over the month, the price level for non-food goods increased by 0,8%. for paid services by 0,5%, and for goods by 0.2%.

Inflation for the month

in percentages. increase

	October			
	goods and services	food products	non-food products	paid services
2022	1,6	1,4	1,7	1,7
2023	0,7	0,5	0,8	0,8
2024	0,9	0,4	1,0	1,4
2025	0,5	1,0	1,2	-0,8
2026	0,5	0,2	0,8	0,5

3. Glossary

Inflation - an indicator that characterizes the change in time of the average price level for a fixed list of goods and services purchased by the population for personal consumption.

Contribution - the amount of influence of the percentage change in the indicator on the overall value of inflation.

4. Methodological explanations

The consumer price index. which characterizes the level of inflation. reflects the change over time in the general level of prices for goods and services purchased by the population for personal consumption.

The calculation of the consumer price index is based on information obtained from two sources:

- data on price changes collected by their direct registration in specially selected for this purpose outlets and places of services;
- household survey materials regarding the structure of actual consumer spending of the population.

The collection of information on price changes is carried out in a selective circle of cities and regional centers. in all regional centers. in cities of republican significance and the capital. The choice of basic trade and service enterprises is carried out locally. Objects of all types of trade and paid services are selected so that the survey includes enterprises with different trading conditions and regularly selling goods (services) of mass demand.

The set of goods and services for monitoring consumer prices and calculating the CPI is a single sample for all regions of Kazakhstan. The list of goods and services contains 537 items. which representatively includes the most representative types that occupy the largest share in the consumption of the population.

The collection of information on prices is carried out directly at the places of sale of goods (services) by price registrars. Prices are fixed for goods paid on the day of the survey. including taxes. but excluding additional fees for their delivery.
