Note: Indicators that were formed late are presented in the previous table.

## 2. Social indicators

### 2.1 Population size and migration

The population of the country as of March 1, 2026 amounted to 20532,2 thousand people, including 13120,9 thousand (63,9%) urban residents and 7411,3 thousand (36,1%) rural residents.

In January 2026, compared to January 2025, the number of arrivals to Kazakhstan increased in 43%, while the number of departures from the country increased in 24,1%.

The main migration exchange of the country occurs with the CIS member states, with the share of arrivals from and departures to these countries amounting to 117,5% and 108,4%, respectively.

The number of internal migrants increased by 3,7%. A positive net migration balance due to interregional movements was recorded in three regions of the country: the cities of Astana (12657 people), Almaty (3620 people), Shymkent (2828 people) and Almaty region (2941 people).

#### Changes in the rate of population growth

at the end of the period, as a percentages

[Summary of the socio-economic development of the regions](#)

### 3.7 Statistics of agriculture, forestry, hunting and fisheries

Gross output of products (services) of agriculture, forestry and fisheries in January-March 2026 amounted to 898695,1 million tenge, including crop production – 52525,4 million tenge, livestock – 831831,1 million tenge, hunting – 515,0 million tenge, forestry – 6837,5 million tenge, fisheries and aquaculture – 6950,5 million tenge, services in agriculture – 35,6 million tenge.

Out of the total output volume, agricultural formations account for 471511,2 million tenge or 52,5 percent of the total volume, including 43832,9 million tenge (83,5 percent) in crop production and 413339,7 million tenge (49,7 percent) in livestock breeding.

#### Index of physical volume of gross output (services) of agriculture, forestry and fishery sector

### 3.9 Statistics of building and housing construction

In January-March 2026, the volume of construction work increased by 14,8% and amounted to 1231,4 billion tenge.

The largest amount of work in January-March 2026 was performed on the construction of facilities (678,2 billion tenge), non-residential buildings (375,1 billion tenge) and residential buildings (178,1 billion tenge).

The volume of construction and installation work in January-March 2026 compared to January-March 2025 increased by 13,6% and amounted to 1066,1 billion tenge. The volume of construction work on major repairs increased by 7,4% and on current repairs by 42,4%.

In January-March 2026, the construction of 7389 new buildings was completed, of which 6700 are residential and 689 are non-residential.

The following social and cultural facilities were put into operation:

- secondary school – 19;
- preschool organizations – 11;
- ambulatory polyclinic organizations – 1.

In January-March 2026, 662,7 billion tenge was allocated for housing construction. In the total volume of investments in fixed capital, the share of disbursed funds in housing construction amounted to 19,1%.

The main source of financing for housing construction in January-March 2026 is the own funds of developers, the share of which is 96,1%.

## Indices of physical volume of investments in housing construction

as a percentages of the corresponding month of the previous year

In January-March 2026, the total area of housing put into operation to January-March 2025 increased by 3,8% and amounted to 3869,4 thousand square meters, of which in multi-apartment buildings – by 4,5% (2608 thousand square meters), individual residential buildings - by 2,8% (1251,9 thousand square meters).

In the total volume of commissioned housing, the share of multi-apartment buildings was 67,4%, individual – 32,4%. The average actual cost of construction of 1 square meter of total housing area increased by 3,4%.

## Indices of the physical volume of commissioned residential buildings
