2. Dynamics of subjects

Every year there is an increase in the number of registered legal entities by an average of 5%, so over the past ten years (2012-2022) their number has increased from 317,926 to 507,238 (by 189,312 units or 59.5%). At the same time, it should be noted that the main growth occurs due to small legal entities, their number is steadily increasing every year by an average of 4.9%. Unlike small ones, the dynamics of medium and large legal entities is not stable. Over the past decade, against the background of the annual growth in the number of medium and large legal entities, in 2016, 2017 and 2019 their number was not significant, but decreased (by 1.3%, 1.4% and 3.1%, respectively).

3. Glossary

Individual entrepreneurship - an independent, initiative activity of citizens of the Republic of Kazakhstan, kandas, aimed at obtaining net income, based on the property of individuals themselves and carried out on behalf of individuals, at their risk and under their property responsibility. Individual entrepreneurship is carried out in the form of personal or joint entrepreneurship.

Personal entrepreneurship - carried out by one individual independently on the basis of property belonging to him by the right of ownership, as well as by virtue of another right that allows the use and (or) disposal of property.

Joint entrepreneurship - carried out by a group of individuals (individual entrepreneurs) on the basis of property belonging to them on the basis of common ownership, as well as by virtue of another right that allows joint use and (or) disposal of property.

Categories of business entities - depending on the average annual number of employees and average annual income, business entities are classified into the following categories: "subjects of small" business, including micro-entrepreneurship entities; subjects of medium business; subjects of large business. For the purposes of state statistics, only the criterion of the average annual number of employees is used.

Principal type of activity - a type of activity, the added value of which exceeds the added value of any other type of activity carried out by an economic entity;

Secondary type of activity - a type of activity, in addition to the main one, which is carried out with the aim of producing products (goods and services) for third parties.

4. Methodological explanations

All presented indicators are based on the Statistical Business Register, which contains information on legal entities, branches and subsidiaries of foreign legal entities, as well as individual entrepreneurs that have been registered or re-registered with the registration authorities.

The proposed tables show the number of registered and operating legal entities, branches and subsidiaries of foreign legal entities, individual entrepreneurs, as well as small and medium-sized businesses by size, by form of ownership, by region and type of activity.

The types of activities are presented in accordance with the current General Classifier of Types of Economic Activities (GCTEA). Entities carrying out several types of activities are accounted for by the main type that provides the greatest increase in value added.

Operating entities in the Statistical Business Register include:

- entities currently engaged in economic activity, ie. active;
- newly registered and not yet engaged in economic activity;

- entities that temporarily suspended their activities.

In accordance with the "Classifier of the dimension of legal entities, branches and representative offices, as well as individual entrepreneurship entities by the number of employees", 3 classes of entities are provided for in dimension, depending on the average annual number of employees:

- small (up to 100 people);
- medium (from 101 to 250 people);
- large (over 250 people).

Legal entities with branches are taken into account taking into account the headcount of all its branches.
