3. Glossary

Principal activity - a type of activity, the added value of which exceeds the added value of any other type of activity carried out by an economic entity.

Assets - resources controlled by an individual entrepreneur or organization as a result of past events from which the following economic benefits are expected to be received.

Income - an increase in economic benefits during an accounting period in the form of an inflow or increase in assets or a decrease in liabilities that results in an increase in equity, other than an increase associated with contributions from equity participants.

Fixed assets - tangible assets held by an entity for use in the production or supply of goods (works, services), for leasing to other persons, for value addition or for administrative purposes, the use of which is expected for more than one period.

Expenses - decreases in economic benefits during an accounting period in the form of an outflow or decrease of assets or incurrence of liabilities that result in a decrease in equity, other than a decrease related to distributions to equity participants.
