**3. Glossary**

Communication - reception, collection, processing, accumulation, transfer (transportation), delivery, distribution of information, postal and special items, postal money transfers.

Postal activity is the provision of postal services through postal networks.

**4. Methodological explanations**

The table shows statistical data on the work of enterprises with the types of activities "postal and courier activities" (code NOGA 53) and "communication" (code NOGA 61), which reported on the statistical form 3-communication of monthly frequency.

The work of communication enterprises is characterized by certain types of services provided, in monetary and physical terms, by regions, based on reports submitted by enterprises.

The provision of communication services is the activity of communication operators, which consists in providing users with communication services listed in the general classifier of products of economic activities. The volume of communication services includes the volumes of intercity, international and local telephone communications, data transmission, Internet, mobile communications, distribution of programs, as well as other telecommunication services. In the volume of postal and courier services provided by the main type of activity, enterprises in value terms include the receipt of funds from the population and legal entities for the communication services rendered in the reporting period, regardless of the payment period for the services rendered.
