Conventional symbols:

- - it is absent

0.0 - a small quantity

x - data are confidential

... - data are absent

The small discrepancies between total and the sum of summand in some cases can be explained by rounding of data.

Foreword

The compilation «Investment and construction activities in the Republic of Kazakhstan» provides information on the investment activities of business entities, on the volume of investments in fixed capital, sources of funds for generating investments, on the structure and dynamics of investments in fixed capital in the country, and also contains information on the development of the construction industry in Republic of Kazakhstan. Presents information on the activities of construction organizations, the commissioning of fixed capital, production and non-production facilities, residential buildings and social and cultural facilities, Including and by region.

The statistical compilation is intended for a wide range of users: senior management personnel, employees of government bodies and financial and economic services of enterprises and organizations, scientific, business and banking circles, faculty members, undergraduates and students of economic universities, and other stakeholders.

Content

1. Main indicators of investment and construction activities	5
2. Investment activities.....	6
3. Construction activities	19
4. Housing and socio-cultural construction	23
5. Commissioning of facilities for non-residential facilities	29
6. Regions of the Republic of Kazakhstan	53
Short methodological explanations	173

1. Main indicators of investment and construction activities

1.1 Main indicators of investment and construction activities

	Investments in fixed capital, million tenge	Volume of construction works, million tenge*	Total area of residential buildings commissioned, thousand square meters	Commissioning of education and health facilities			
				general education schools, student places	preschool organizations, places	hospitals, beds	ambulatory polyclinic organizations, visits in shift
1991	47	18	6 130	70 375	24 613	1 837	10 351

3. Construction activities

3.1 Main indicators of construction activity

	2018	2019	2020	2021	2022
Share of construction in gross domestic product, percent	5.3	5.5	6.1	5.7	6.1
Commissioning of fixed capital. in actual prices, million tenge	21 798 269	7 710 033	7 966 175	9 895 406	9 171 648
Volume of construction works, million tenge in actual prices	3 862 995	4 431 666	4 934 069	5 530 681	6 304 274
as a percentage of the previous year	104.6	113.2	111.6	108.3	110.2
Number of construction organizations, units	7 654	7 810	8 317	8 188	8 627
Total area of commissioned residential buildings, thousand square meters, meters	12 521	13 126	15 332	16 910	15 667
as a percentage of the previous year	112.1	104.8	116.8	110.3	92.6
Including:					
individual developers	5 877	6 500	6 404	7 066	6 782
as a percentage of the previous year	136.0	111.3	99.5	110.3	96.0

Indexes of physical volume of construction works and commissioning of houses in operation

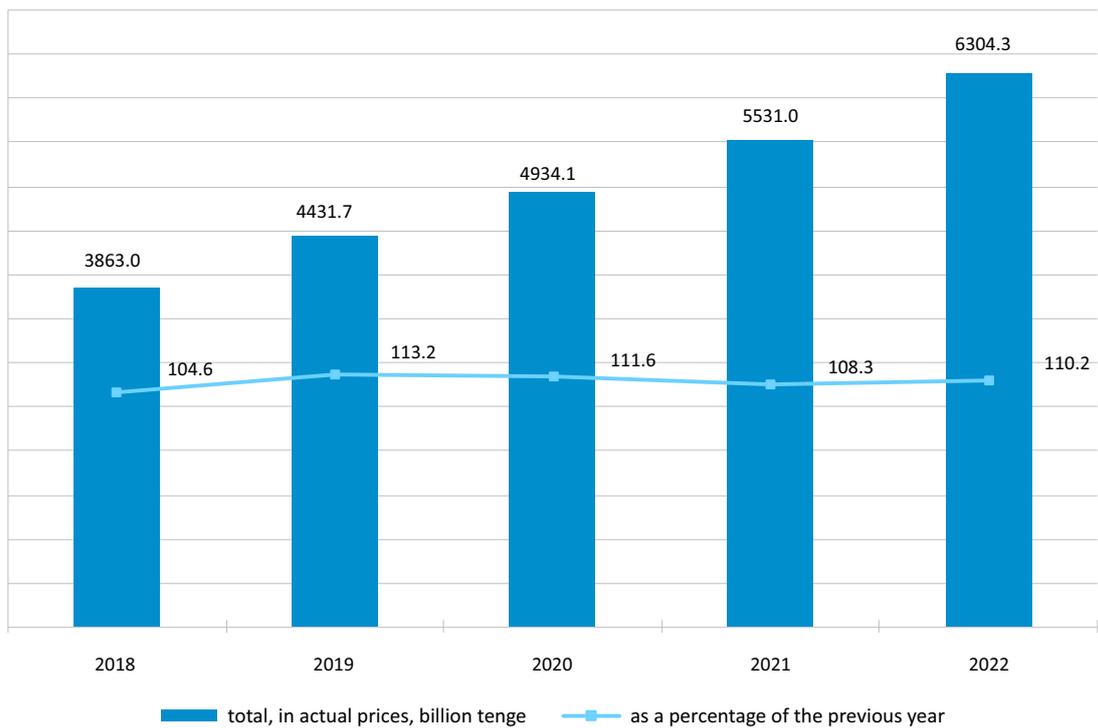

as a percentage of the previous year

3.2 Volume of construction works

	2018	2019	2020	2021	2022
Number of construction organizations, units	7 654	7 810	8 317	8 188	8 627
Volume of completed construction work in actual prices, million tenge	3 862 995	4 431 666	4 934 069	5 530 681	6 304 274
of them:					
construction and assembly works	3 323 650	3 772 840	4 062 896	4 797 456	5 500 786
overhaul	275 705	336 693	411 131	361 241	383 467
maintenance work	263 639	322 133	460 042	371 984	420 021
including performed on:					
housing construction	533 502	651 756	793 650	1 083 331	1 227 480
made on non-residential buildings	1 397 671	1 409 552	1 786 111	2 056 544	2 352 728
performed on structures	1 931 822	2 370 358	2 354 308	2 390 806	2 724 066

Volumes and volume indices of construction work

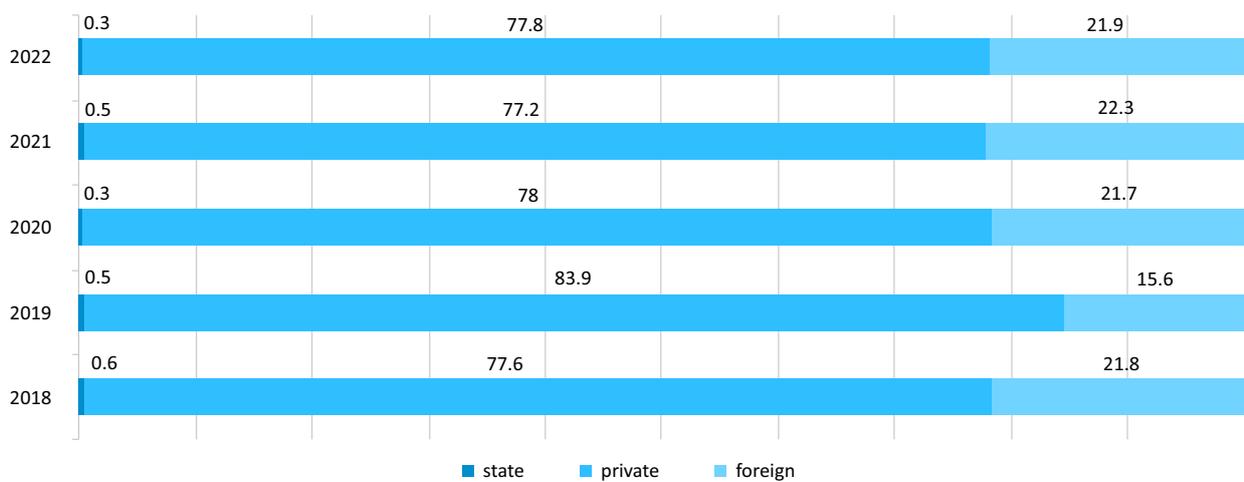

3.3 The volume of construction works by forms of ownership of economic entities

in actual prices, million tenge

	2018	2019	2020	2021	2022
Volume of construction works, total	3 862 995	4 431 666	4 934 069	5 530 681	6 304 274
Including by ownership:					
state	21 742	21 343	12 844	25 504	20 141
private	2 999 171	3 716 575	3 850 870	4 272 027	4 906 633
foreign	842 082	693 748	1 070 355	1 233 150	1 377 500

Structure of the volume of construction work performed on the forms of ownership of business entities

as a percentage of the total volume

Continuation

3.4 Volume of construction works by the dimension of enterprises

in actual prices, million tenge

	2018	2019	2020	2021	2022
Volume of construction works, total	3 862 995	4 431 666	4 934 069	5 530 681	6 304 274
Including enterprises:					
large	1 169 049	1 556 168	1 649 537	3 114 959	1 967 290

2021	2 670	-	-	-
2022	2 594	178	-	-

Short methodological explanations

Investments in fixed capital - investments in order to obtain investors of economic, social or environmental effect in the case of new construction, expansion, as well as reconstruction and modernization of facilities, which lead to an increase in the initial value of the object, as well as the purchase of machines, equipment, vehicles, on the formation of the main herd, perennial plants, etc.

Investments in tangible fixed capital - costs in residential buildings, other buildings, structures, machinery, equipment, vehicles, cultivated biological resources.

Investments in intangible fixed capital - the costs of objects created or acquired by organizations, are used in economic activity for more than one year, having a monetary value, with the ability of alienation and generating income, but not being tangible values.

The index of physical volume (hereinafter - IPV) of investments in fixed capital characterizes the change in investments in the dynamics and is determined by the ratio of the volume of investments in fixed capital in the reporting and the compared period in comparable prices.

The calculation of IPV of investments in fixed capital for 2017 is carried out in accordance with the Methodology for the formation of investment performance indicators approved by the Order of the Chairman of the Committee on Statistics of the Ministry of National Economy of the Republic of Kazakhstan of December 2. 2016 No. 296, registered in the Ministry of Justice of the Republic of Kazakhstan on December 27. 2016 No. 14601.

Investments aimed at protecting the environment - costs aimed at protecting the environment and rational use of natural resources: the cost of carrying out activities for commissioning and reconstruction of wastewater treatment facilities; the cost of carrying out activities for the commissioning of facilities for cleaning household and storm drains; costs of measures to improve the condition of surface water sources; the cost of carrying out measures for the protection of land resources; the cost of carrying out activities for the creation of specially protected natural areas and other costs.

Domestic investments are investments of own or borrowed capital by investors of a given country (residents) in newly created or existing fixed capital within the country.

Foreign - investments of foreign capital owned by foreign investors in newly created or existing fixed capital located in the territory of the Republic of Kazakhstan.

Investments in construction include: construction costs of all kinds; the cost of installation of equipment for the purchase of equipment that requires and does not require installation, provided for in the estimates for construction; for the purchase of production tools and household equipment included in the construction estimates; for other capital works and costs associated with construction.

Investment in housing - the cost of building individual and multi-family residential buildings. dormitories. residential buildings for social groups.

The composition of the commissioned fixed capital includes the cost of completed construction and commissioned enterprises. buildings and structures for production and non-production purposes; the cost of machinery, equipment, vehicles of all kinds (requiring and not requiring installation. included and not included in the estimates for construction); the cost of tools, inventory and other items credited to fixed capital; the cost of perennial plantations (orchards, vineyards, etc.) and working and productive livestock; capital costs for land improvement and other costs associated with an increase in the value of fixed capital.

Construction activities - the creation of new buildings and structures, other construction projects, as well as expansion, reconstruction of existing buildings and structures.

The volume of construction work includes the cost of construction work performed by enterprises engaged in construction activities under construction contracts.

Classification units of the type of activity "Construction" is an enterprise, depending on the nature of the main and secondary types of economic activity, one of the groupings of the General Classifier of types of economic activity (hereinafter referred to GCTEA) sections 41-43 of section F.

Buildings include an artificial structure consisting of supporting and enclosing structures that form a compulsory ground-enclosed volume, depending on the functionality used for living or staying people, performing production processes, as well as placing and storing material values. The building may have an underground part.

The total area of a residential building (residential building) is the sum of the useful areas of all residential premises and the areas of all non-residential premises, as well as the areas of parts of a residential building that are common property.

The indicator "Average actual construction costs for 1 square meter of the total area of residential buildings (without specialized and other residential buildings)" determines the actual capital costs incurred by developers and is calculated by dividing the actual cost of construction (thousand tenge) by the total area of residential buildings (square meters).
