3. Definitions and concepts	
Definition	State budget deficit
Basic concepts:	A state budget deficit is when planned expenditures exceed planned government revenues. A State budget surplus occurs when planned government revenues exceed planned expenditures.
Justification and interpretation	With a budget deficit, the government is forced to look for additional funds to finance expenses. The means of covering the state budget deficit is to attract borrowed funds, both domestically and abroad. Due to the budget surplus, various kinds of state funds and gold and foreign exchange reserves of the country are replenished. Sometimes, due to the surplus, the state pays off the national debt.
