Total	272	281	291
Urban area	190	194	208
Rural area	82	87	83

Total number of organizations providing special social services

units

The main contingent of people living in organizations providing special social services are persons with disabilities. Their number was 25496 people, or 61.1% of the total number of those served at the end of 2023.

At the end of 2023, the number of residents with disabilities with a violation of the musculoskeletal system was 4654 people (18.3%), with mental behavioral disorders - 19765 people (75.1%).

3. Glossary

An organization providing special social services in a semi-hospital environment - a legal entity or a structural subdivision of a legal entity, regardless of the form of ownership, intended to provide special social services in conditions of long-term or temporary (up to 6 months) stay of service recipients in the organization.

An organization providing special social services in a hospital - a legal entity, regardless of the form of ownership, intended to provide special social services in conditions of round-the-clock permanent or temporary (up to three months) residence of service recipients in the organization.

An organization providing special social services in conditions of temporary stay - a legal entity, regardless of the form of ownership, intended to provide special social services in conditions of a round-the-clock temporary (for a period not exceeding one year) stay in an organization.

4. Methodological explanations

Organizations of a stationary type - medical and social institutions (organizations) intended for round-the-clock permanent or temporary (up to three months) residence of service recipients in a hospital (hereinafter referred to as organizations of a stationary type).

Organizations of a semi-stationary type - day care departments, territorial and rehabilitation centers, other organizations designed to provide special social services in conditions of long-term or temporary (up to 6 months) stay.
