## 2. Investment activities

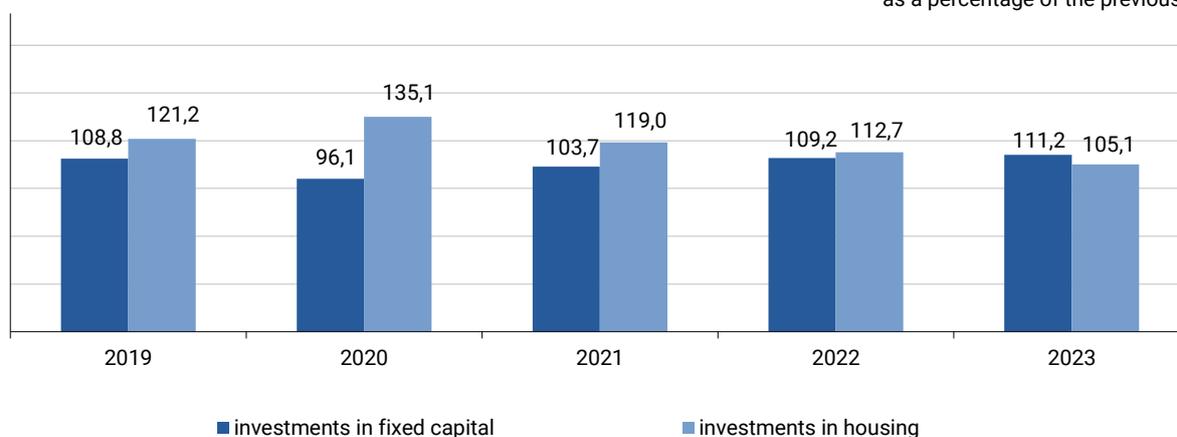

### Investments in fixed capital

#### 2.1 Dynamics of the main indicators of investment activity

	Investments in fixed capital	Investment in housing
2019	12 576 793	1 475 500
2020	12 270 144	1 989 281
2021	13 242 233	2 434 297
2022	15 251 104	2 799 912
2023	17 649 313	3 067 222

#### Indexes of physical volume of fixed capital investment in housing construction

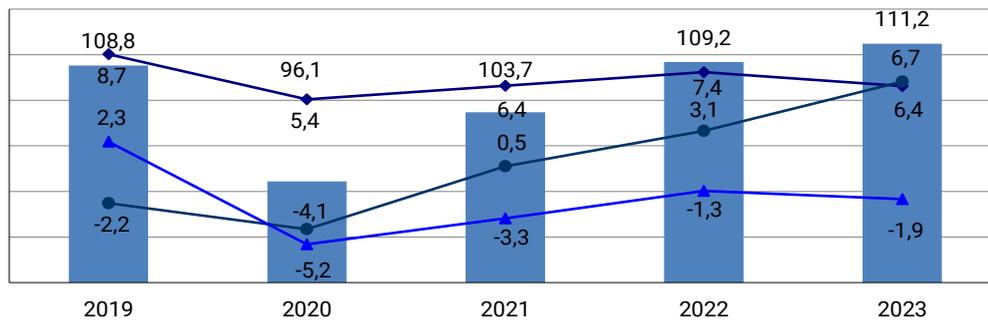

as a percentage of the previous year

#### Investments per capita

### Impact of technological structure of the elements on the index of physical volume of investments in fixed capital

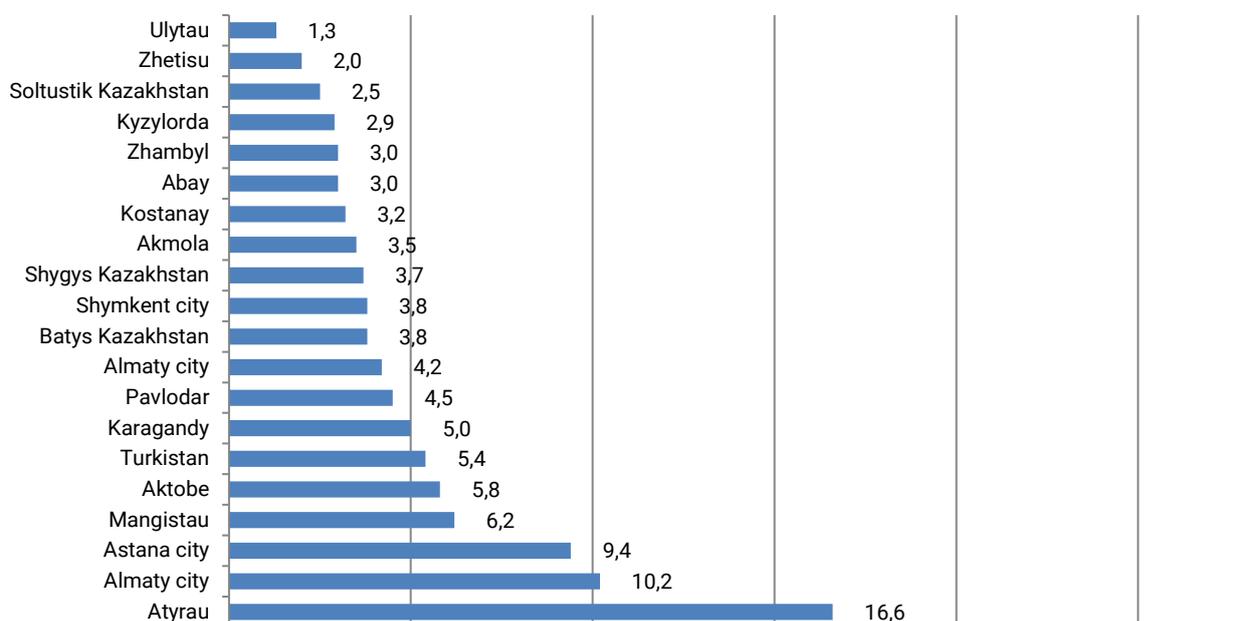

- index of the physical volume of investments in fixed capital, as a percentage of the previous year
- ◆ impact of construction and overhaul of buildings and structures on the volume of investments in fixed capital, in percent
- impact of the acquisition of machinery, equipment, vehicles, tools and their overhaul on the volume of investments in fixed capital, in percent
- ▲ impact of other expenses on the volume of investments in fixed capital, in percent

### 2.2 Investments in fixed capital

### 3. Construction activities

#### 3.1 Main indicators of construction activity

	2019	2020	2021	2022	2023
Share of construction in gross domestic product, percent	5.5	6.1	5.7	6.1	5.6
commission in goffixed capital, Inactual prices, million tenge	7 710 033	7 966 175	9 895 406	9 171 648	20 855 397
volume of construction works, million tenge					
Inactual prices	4431666	4 934069	5 530 681	6 304 274	7 612 810
asapercentage of the previous year	113.2	111.6	108.3	110.2	115.1
number of construction organizations, units	7810	8317	8 188	8 627	8 860
total area of commissioned residential buildings, thousand square meters, meters	13 126	15 332	16 910	15 667	17 827
asapercentage of the previous year	104.8	116.8	110.3	92.6	113,8
Including:					
individual developers	6 500	6 404	7 066	6 782	6 622,7
asapercentage of the previous year	111.3	99.5	110.3	96.0	97.7

#### Indexes of physical volume of construction works and commissioning of houses in operation

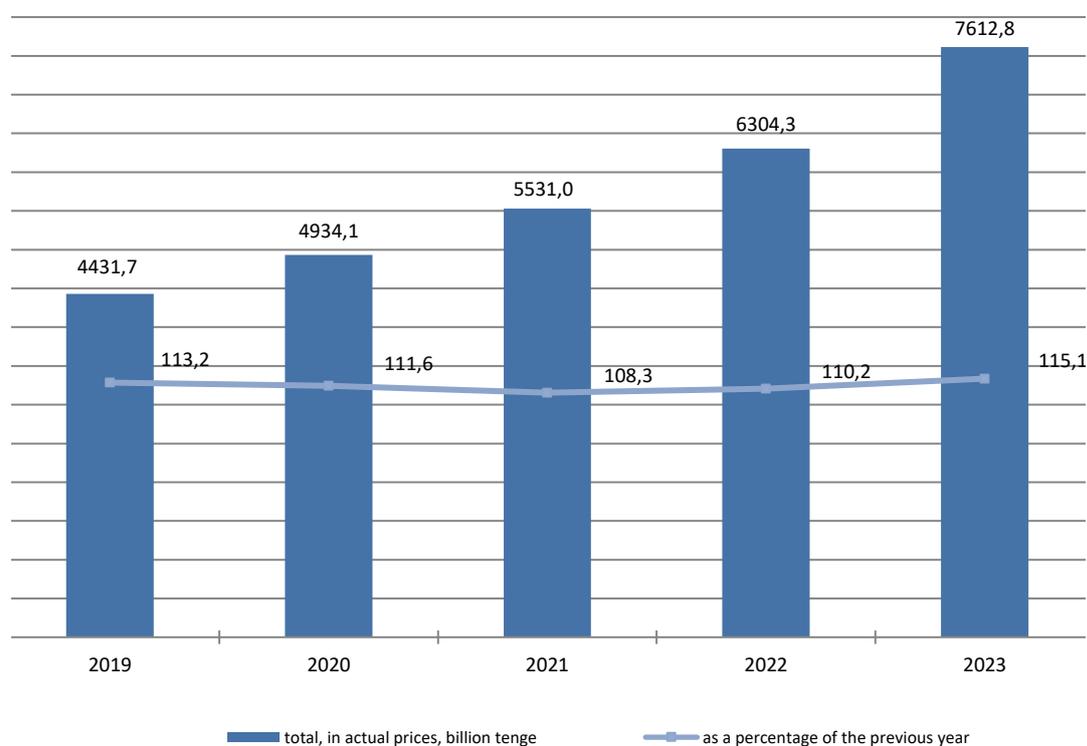

as a percentage of the previous year

### 3.2 Volume of construction works

	2019	2020	2021	2022	2023
Number of construction organizations, units	7810	8 317	8 188	8 627	8 860
Volume of completed construction work in actual prices, million tenge	4 431 666	4 934 069	5 530 681	6 304 274	7 612 810
of them:					
construction and assembly works	3 772 840	4 062 896	4 797 456	5 500 786	6 449 295
over haul	336 693	411 131	361 241	383 467	578 018
maintenance work	322 133	460 042	371 984	420 021	585 497
including performed on:					
housing construction	651 756	793 650	1 083 331	1 227 480	1 216 767
made on non-residential buildings	1 409 552	1 786 111	2 056 544	2 352 728	2 502 327
Performed on structures	2 370 358	2 354 308	2 390 806	2 724 066	3 893 716

### Volume sand volume indices of construction work

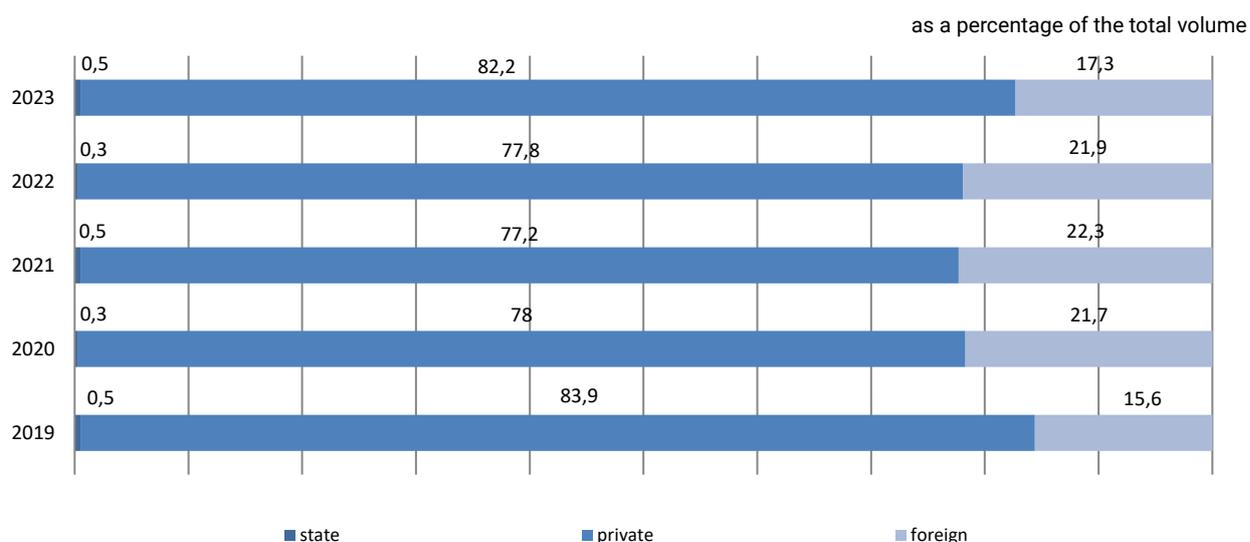

### 3.3 The volume of construction works by forms of ownership of economic entities

in actual prices, million tenge

	2019	2020	2021	2022	2023
Volume of construction works, total	4431666	4 934069	5 530 681	6 304 274	7 612 810
including by ownership:					
state	21 343	12 844	25 504	20 141	39 625
private	3 716 575	3 850 870	4 272 027	4 906 633	6 259 208
foreign	693 748	1 070 355	1 233 150	1 377 500	1 313 977

### Structure of the volume of construction work performed on the forms of ownership of business entities

### 3.4 Volume of construction works by the dimension of enterprises

in actual prices, million tenge

	2019	2020	2021	2022	2023
Volume of construction works, total	4 431 666	4 934 069	5 530 681	6 304 274	7 612 810
Including enterprises:					
large	1 556 168	1 649 537	3 114 959	1 967 290	2 367 136
medium	737 777	787 230	766 661	939 776	1 365 037
small	2 137 722	2 497 302	1 649 061	3 397 208	3 880 637

### 3.5 Types of contract construction work\*

million tenge

	2019	2020	2021	2022	2023
Volume of construction works (services)	4 431 666	4 934 069	5 530 681	6 304 274	7 612 810

## Short methodological explanations

Investments in fixed assets - investments in order to obtain investors of economic, social or environmental effect in the case of new construction expansion as well as reconstruction and modernization of facilities, which lead to an increase in the initial value of the object, as well as the purchase of machines equipment vehicles on the formation of the main herd, perennial plants, etc.

Investments in tangible fixed assets - costs in residential buildings. other buildings structures machinery equipment vehicles cultivated biological resources.

Investments in intangible fixed capital - the costs of objects created or acquired by organizations, are used in economic activity for more than one year, having a monetary value, with the ability of alienation and generating income, but not being tangible values.

The index of physical volume (hereinafter - IPV) of investments in fixed capital characterizes the change in investments in the dynamics and is determined by the ratio of the volume of investments in fixed capital in the reporting and the compared period in comparable prices.

The calculation of IPV of investments in fixed capital for 2017 is carried out in accordance with the Methodology for the formation of investment performance indicators approved by the Order of the Chairman of the Committee on Statistics of the Ministry of National Economy of the Republic of Kazakhstan of December 2.2016No.296, registered in the Ministry of Justice of the Republic of Kazakhstan on December 27. 2016 No. 14601.

Investments aimed at protecting the environment - costs aimed at protecting the environment and rational use of natural resources: the cost of carry in gout activities for commission in gander construction of waste water treatment facilities; the cost of carrying out activities for the commissioning of facilities for cleaning household and storm drains; costs of measures to improve the condition of surface water sources; the cost of carrying out measures for the protection of land resources; the cost of carrying out activities for the creation of specially protected natural areas and other costs.

Domestic investments are investments of own or borrowed capital by investors of a given country (residents) in newly created or existing fixed capital with in the country.

Foreign - investments of foreign capital owned by foreign investors in newly created or existing fixed capital located in the territory of the Republic of Kazakhstan.

Investments in construction include: construction costsofall kinds; the costofinstallation of equipment for the purchase of equipment that requires and does not require installation, provided for in the estimates for construction; for the purchase of production tools and household equipment included in the construction estimates; for other capital works and costs associated with construction.

Investment in housing - the cost of building individual and multi-family residential buildings, dormitories, residential buildings for social groups.

The composition of the commissioned fixed assets includes the cost of completed construction and commissioned enterprises, buildings and structures for production and non-production purposes; the cost of machinery. Equipment, vehicles of all kinds (requiring and not requiring installation. included and not included in the estimates for construction); the cost of tools, inventory and other items credited to fixed assets; the cost of perennial plantations (orchards, vineyards, etc.) and working and productive livestock; capital costs for land improvement and other costs associated with an increase in the value of fixed assets.

Construction activities - the creation of new buildings and structures, other construction projects, as well as expansion, reconstruction of existing buildings and structures.

The volume of construction work includes the cost of construction work performed by enterprises engaged in construction activities under construction contracts.

Classification units of the type of activity "Construction" is an enterprise, depending on the nature of the main and secondary types of economic activity, one of the groupings of the General Classifier of types of economic activity (herein after referred to GCTEA) sections 41-43 of section F.

Buildings include an artificial structure consisting of supporting and enclosing structures that form a compulsory ground-enclosed volume depending on the functionality used for living or staying people performing production processes as well as placing and storing material values. The building may have an underground part.

The total area of a residential building (residential building) is the sum of the useful areas of all residential premises and the areas of all non-residential premises as well as the areas of parts of a residential building that are common property.

The indicator "Average actual construction costs for 1 square meter of the total area of residential buildings (without specializedan do the residential buildings)" determines the actual capital costs incurred by developer sand is calculated by dividing the actual cost of construction (thousand tenge) by the total area of residential buildings (square meters).
