S. 2 Introduction-Relevance

Culture is a set of material and spiritual values created by humanity and aimed at meeting the spiritual needs and interests of people.

The basis for the formation of culture statistics is the statistical reports of cultural institutions, one of which is form 1-cinema "Report on the activities of organizations performing film screening and film production".

The main users are the Ministry of Culture and Sports of the Republic of Kazakhstan, local executive bodies and other departments, individuals and legal entities.

The Bureau of national statistics of the Agency for strategic planning and reforms of the Republic of Kazakhstan holds meetings of working groups (focus groups), with the participation of potential users and respondents, representatives of interested government agencies, as well as NPP "Atameken", which analyze in detail indicators of national statistical forms for their relevance and avoidance of duplication with indicators of departmental statistical forms and forms of administrative data. Feedback from users is carried out through the blog of the Minister of National Economy of the Republic of Kazakhstan on the website of the Ministry of National Economy of the Republic of Kazakhstan (www.economy.gov.kz).
