Brief methodological explanations

A preschool organization - is an educational organization that is created to meet the needs and demands of the family in caring for children, their harmonious development on the basis of general cultural and national values, preparing the child for the initial stage of secondary general education, creating the necessary conditions for parents to continue their work and study, and actively participate in public life.

The preschool organization provides education, training, supervision, care and improvement of children aged from 1 to 6 years.

Preschool organizations are divided into types: nursery, nursery-kindergarten, kindergarten, complex «school-kindergarten», mini-center.

The availability of places for children in preschool organizations (there are children per 100 places) is determined by the ratio of the number of places in preschool organizations to the number of children in them.

A general education school is an educational institution that implements general education curricula of primary, basic secondary and general secondary education, as well as additional education curricula for students and pupils.

The general education school is the main link in the system of continuing education and provides all citizens of Kazakhstan with the opportunity to realize the right guaranteed by the state to receive free general secondary education within the state standards.

General education organizations carry out the educational process in accordance with the educational programs of three levels of education: primary education (grades 1-4), basic secondary education (grades 5-9), and general secondary education (grades 10-11(12)).

Educational organizations of technical and vocational education (school, college) – organizations that implement professional programs of technical and vocational education aimed at training qualified workers and middle-level specialists in the main areas of socially useful professional activity).

Higher educational institutions – organization of higher and (or) postgraduate education - higher education institution implementing educational programs of higher and (or) postgraduate education and carrying out research activities.
