## S.2 Introduction-Relevance

This statistical observation in the form "Report on the main indicators of the financial and economic activities of the educational organization" (hereinafter - Social Finance (education)) refers to the education sector. The statistical form is compiled on the basis of data from the primary accounting documentation of educational organizations. The receipt and use of financial resources of educational institutions (organizations of preschool education and training, secondary schools, organizations of technical and vocational education, higher educational institutions) are calculated according to the accounting reporting method of educational organizations. The receipt of funds is characterized by the following indicators:

availability and sources of funding for these organizations (receipts from the state or

local budget), payment of parents for the maintenance of the child in the organization of preschool education and training, tuition fees for pupils (students), income from the rental of premises, equipment, etc.

## S.3 Updating metadata

### S.3.1 Latest confirmation of updated metadata

### S.3.2 Latest placement of metadata

### S.3.3 Latest metadata update

## S.4 Presentation of statistical information

### S.4.1 Data description

The main indicators of the financial and economic activity of an educational organization are characterized by the following indicators: by items of income and expenses (current income, received transfers for capital expenditures, other income, current expenses, expenses for capital repairs, expenses for the acquisition of fixed assets), results of financial and economic activities organizations (income, expenses, profit (loss) before taxation, total profit (loss) for the period), indicators of the balance sheet (assets and liabilities)). The publications of the statistical report provide a breakdown by region, type of locality, forms of ownership and size of enterprises.

#### S.4.2 Classification system

1. KATO - Classifier of administrative-territorial objects of the NK RK 11-2009;
2. KSP - Handbook of Statistical Indicators;
3. ATSS - Directory of Transfer Types;
4. SVRU - Directory of types of expenses for the provision of services;
5. SVNO - Directory of types of taxes, deductions;
6. SPBB - Handbook of Balance Sheet Indicators;
7. KFS - Classifier of forms and types of ownership.

#### S. 4.3 Sectoral coverage

The circle of respondents is represented by legal entities and (or) their structural and separate divisions with the main type of activity: "Education" according to the code of the General Classifier of Economic Activities (OKED) - 85 regardless of the form of ownership and the number of employees.

#### S.4.4 Statistical concepts and definitions

1. Type of observation - continuous observation;
2. Toolkit for data collection - the statistical form "Report on the main indicators of the financial and economic activities of the educational organization" (Sotsfin (education) index).

The statistical form is available on the Bureau of national statistics website [www.stat.gov.kz/For respondents / Statistical forms for 20\\_\\_ / Social Finance \(education\)](http://www.stat.gov.kz/For%20respondents%20-%20Statistical%20forms%20for%2020__%20-%20Social%20Finance%20(education));

3. Deadline for submission - until April 1 (inclusive) after the reporting period, in accordance with the Plan of statistical work, approved in accordance with the legislation of the Republic of Kazakhstan by the Order of the Minister of National Economy of the Republic of Kazakhstan;
4. The following definitions apply for the purposes of completing this statistical form:

- 1) Fixed assets are tangible assets that are held by an entity for use in the production or supply of goods (works, services), for leasing to others, for value gains or for administrative purposes, the use of which is expected for more than one period;
- 2) Income - an increase in economic benefits during the reporting period in the form of an inflow or increase in assets or a decrease in liabilities, which lead to an increase in capital, other than an increase associated with contributions of persons participating in capital;
- 3) Expenses - decreases in economic benefits during the reporting period in the form of outflows or decreases in assets or incurrance of liabilities that result in decreases in equity, other than those associated with distributions to equity holders.

#### S.4.5 Статистический объект

Structural and separate subdivisions of a legal entity at their location, if they have been delegated the authority to submit statistical forms by a legal entity. If the structural and separate subdivisions do not have such powers, the statistical form is provided by the legal entity in the context of its structural and separate subdivisions, indicating their location.

#### S.4.6 General population (principle of selection of survey units)

Not applicable due to continuous observation.

#### S.4.7 Territorial coverage

Republic of Kazakhstan (14 regions, cities of republican significance and the capital).

#### S.4.8 Time coverage

Formed since 2000, there are time series from 2000 to the present.

#### S.4.9 Base period

The base period changes every year.

#### S.5 Unit of measurement

Thousand Kazakh tenge

#### S.6 Reporting period

year

#### S.7 Legal basis

##### S.7.1 Legal framework

1. Law of the Republic of Kazakhstan dated March 19, 2010 No. 257-IV "On state statistics";

2. Rules for the provision of primary statistical data by respondents, approved by order of the Chairman of the Agency of the Republic of Kazakhstan on Statistics dated July 9, 2010 No. 173;
3. The rules for the provision of statistical information on a gratuitous basis that is not provided for by the schedule for the dissemination of official statistical information and developed on the basis of primary statistical data submitted by respondents in accordance with the schedule for the provision of primary statistical data by respondents, approved by the order of the Chairman of the Agency of the Republic of Kazakhstan on Statistics of May 20, 2010 # 113;
4. Rules for the provision and use for scientific purposes of databases in a de-identified form, approved by the Order of the Chairman of the Agency on Statistics of the Republic of Kazakhstan dated July 2, 2010 No. 168. Registered in the Ministry of Justice of the Republic of Kazakhstan on August 13, 2010 No. 6388;
5. The plan of statistical work, approved in accordance with the established legislative procedure of the Republic of Kazakhstan by the Order of the Minister of National Economy of the Republic of Kazakhstan;
6. Schedule for the dissemination of official statistical information, approved by the Order of the Chairman of the Bureau of national statistics of the Agency for strategic planning and reforms of the Republic of Kazakhstan.

## S.8 Privacy and data protection

### S.8.1 Privacy Policy

1. Article 8 of the Law of the Republic of Kazakhstan dated March 19, 2010 "On State Statistics", in accordance with which a guarantee of confidentiality and protection of the submitted data by respondents is ensured;
2. Article 28 of the Entrepreneurial Code of the Republic of Kazakhstan dated October 29, 2015 ensures the protection of information constituting a commercial secret;
3. Information security policy (hereinafter referred to as the Policy) approved by the Order of the Chairman of the Bureau of national statistics of the Agency for strategic planning and reforms of the Republic of Kazakhstan dated October 31, 2016 No. 252 defines the goals, objectives, guidelines and practical techniques in the field of ensuring information security of the Committee. The main goal of the Policy is to ensure the availability of official statistical information, confidentiality of information stored and processed on the computer equipment of the Committee under the conditions of its integrity and authenticity.

### S.8.2 Privacy - data handling

The rules for the provision and use for scientific purposes of databases in a de-identified form, approved by the Order of the Chairman of the Agency on Statistics of the Republic of Kazakhstan dated July 2, 2010 No. 168. Registered in the Ministry of Justice of the Republic of Kazakhstan on August 13, 2010 No. 6388.

## S.9 Publication Policy

### S.9.1 Publication Calendar

Clause 1, Clause 2 of Article 26 of the Law of the Republic of Kazakhstan "On State Statistics" dated March 19, 2010 No. 257. The schedule for the dissemination of official statistical information is posted on the Bureau of national statistics website [www.stat.gov.kz](http://www.stat.gov.kz) / Home / "Basic documents".

### S.9.2 Access to the Graph

The schedule for the dissemination of official statistical information is posted on the Bureau of national statistics website [www.stat.gov.kz](http://www.stat.gov.kz) / Home / "Basic documents".

### S.9.3 User access

The website of the Bureau of national statistics of the Agency for strategic planning and reforms of the Republic of Kazakhstan [www.stat.gov.kz](http://www.stat.gov.kz)/Home/Official statistics / By industry / Education statistics.

## S.10 Propagation frequency

year

## S.11 Dissemination format, accessibility and clarity

### S.11.1 News publications

Press releases are not published.

### S.11.2 Publications

The statistical bulletin "Social Finance Education" is published annually. The statistical bulletin presents the financial and economic activities of educational organizations. The use of funds is characterized by indicators reflecting the main areas of spending of funds and types of material costs of these organizations: salary costs, scholarship fund, business trips, social insurance contributions, payment for intangible services, capital investment costs, overhaul, purchase of equipment and inventory and etc.

### S.11.3 Databases in on-line mode

IAS "Taldau" in the section Education statistics "On the financial and economic activities of educational organizations of the Republic of Kazakhstan".

#### S.11.3.1 AC1. Data tables-consultation

Not implemented.

### S.11.4 Microdata access

Rules for the provision and use for scientific purposes of the database in a de-identified form, approved by the Order of the Chairman of the Agency on Statistics of the Republic of Kazakhstan dated July 2, 2010 No. 168. Registered in the Ministry of Justice of the Republic of Kazakhstan on August 13, 2010 No. 6388.

#### S.11.5 Other

##### S.11.5.1 AC2. Metadata consultation

Not implemented.

#### S.12 Availability of Documentation

##### S.12.1 Methodology documentation

"Methodological regulation on statistics" Astana 2018, fourth edition, supplemented. Posted on the Bureau of national statistics Internet resource (<https://cabinet.stat.gov.kz/>) in the Methodology section.

##### S.12.2 Quality documentation

1. Policy in the field of quality, approved by the order of the Chairman of the Bureau of national statistics of the Agency for strategic planning and reforms of the Republic of Kazakhstan dated April 23, 2015 No. 67.
2. Objectives in the field of quality Bureau of national statistics of the Agency for strategic planning and reforms of the Republic of Kazakhstan, Objectives in the field of quality of the relevant structural unit.
3. Documented information of the quality management system: Quality manual; Documented procedures; Instructions; Process maps.
4. Standard methodology for describing the process of production of statistical information by state bodies, approved by the Order of the Chairman of the Bureau of national statistics of the Agency for strategic planning and reforms of the Republic of Kazakhstan dated March 30, 2015 No. 53.
5. Methodology for assessing the quality of official statistical information, approved by the Order of the Chairman of the Bureau of national statistics of the Agency for strategic planning and reforms of the Republic of Kazakhstan dated May 23, 2018 No. 63.

#### S.13 Quality management

##### S.13.1 Quality assurance

Quality and reliability of data on education statistics:

- compliance with the basic principles of primary accounting;
- use of standard statistical classifications;
- at the stages of collection and processing of primary data, all control schemes (format-logical, arithmetic) have been developed and implemented.

The information is presented in section 10 of the Instructions of the statistical form of the national statistical observation "Report on the main indicators of the financial and economic activities of the educational organization". Available on the Bureau of national statistics website [www.stat.gov.kz](http://www.stat.gov.kz)/For respondents / Statistical forms for 20\_\_ / Annual forms / Social Finance (education); - to confirm the reliability of the primary data, it is possible to obtain additional information from the respondents.

#### S.13.2 Quality control

Not implemented.

#### S.14 Relevance

##### S.14.1 Needs

Indicators are generated for the calculation of the national accounts of education, used by the Bureau of national statistics to form the system of accounts of education. These calculated indicators are used by the Ministry of Education and Science of the Republic of Kazakhstan, as well as other users of statistical information.

##### S.14.2 User satisfaction

On an annual basis, the collection of proposals from users and respondents, regional departments of statistics is carried out. A survey of users of official statistical information is carried out according to the questionnaire Q-002 "Survey of users". And also, when revising the statistical form, it goes through the procedures of coordination with the interested state bodies, non-governmental organizations, NPP "Atameken".

##### S.14.3 Completeness / R1. Data completeness-share

Not applicable.

#### S.15 Accuracy and reliability (to be completed according to the type of observation)

##### S.15.1 Overall accuracy

Accuracy is ensured by adhering to methodological guidelines and ensuring completeness of coverage. Statistical observation is carried out by a continuous method.

##### S.15.2 Sample errors - indicators / A1.

Not applicable due to solid coverage.

##### S.15.3 Non-sampling error

Not applicable due to solid coverage.

###### S.15.3.1 Coverage error

Not applicable due to solid coverage.

###### S.15.3.1.1 A2. Overcoverage-share

The missing response rate is not calculated.

###### S.15.3.1.2 A3 General units-ratio

Not applicable. There are no proportions as administrative data is not used.

S.15.3.3 No response errors

S.15.3.3.1 A4. Absence unit-fraction

In this case, control is used for the correctness and completeness of data entry.

S.15.3.3.2 A5.No answer item - share

The calculation is not carried out. Control is used for the correctness and completeness of data entry.

S.16 Timeliness and punctuality

S.16.1 Timeliness

S.16.1.1 TP1 Waiting period - first results

The time spent on processing the first results, from the time of submission by respondents to the first publication, is 80 days. The first results in the Bulletin are published according to the Statistical Work Plan and the Schedule for the Dissemination of Official Statistical Information, approved on an annual basis and are final.

S.16.1.2 TP2.Waiting Period - Latest Results

The first results are final.

S.16.2 Punctuality

S.16.2.1 Punctuality / TP3

The data are published in accordance with the Statistical Work Plan approved in accordance with the procedure established by the legislation of the Republic of Kazakhstan and the Schedule for the dissemination of official statistical information, approved by the order of the Chairman of the Bureau of national statistics.

Actual and planned dates coincide, there is no disruption to the publication dates for 2019. The publication deadline is postponed to the next business day if the publication deadline falls on weekends or holidays.

S.17 Comparability

S.17.1 Geographic comparability

Within the territory of the Republic of Kazakhstan.

S.17.1.1 Asymmetry in mirror flow statistics-coefficient / CC1

Absent

S.17.2 Length of comparable time series / CC2

The data are comparable and continuous since 2000.

S.18 Consistency

S.18.1 Consistency, external, cross

Absent

S.18.2 Internal consistency

Indicators are generated for the calculation of the national accounts of education, used by the Bureau of national statistics to form the system of accounts of education.

The Department of Social and Demographic Statistics annually presents the indicators "Number of enterprises reported", "Number of unreported enterprises", "Number of enterprises with zero reporting" to estimate the volume of unreported enterprises.

#### S.19 Load

In 2019, the number of respondents who reported was 21498, of which 19518 (90.8%) reported online. There is no duplication with other statistical observations. No administrative data or other sources are used.

The collection of data on the financial and economic activities of educational organizations is carried out in electronic form and on paper at the request of the respondent. Data collection is carried out online, in which automated arithmetic and logical controls are provided for the respondent, excluding the possibility of typical input errors. Information processing processes are automated using local software systems, control of input and output information is provided.

#### S.20 Revision of data

##### S.20.2 Revision of data / A6

Absent.

#### S.21 Processing of statistical data

##### S.21.1 Input data

The data set on the indicators of financial and economic activity of educational organizations is based on the sources of primary statistical information in the statistical form "Report on the main indicators of financial and economic activity of the educational organization".

The report on the main indicators of the financial and economic activities of the educational organization reflects the following:

- 1) information on items of income and expenses (current income, current expenses, received transfers for capital expenses, other income, expenses for capital repairs, expenses for the acquisition of fixed assets);
- 2) the result of financial and economic activities (income, expenses, profit (loss) before taxation, total profit (loss) for the period);

3) information on the indicators of the balance sheet (assets, liabilities).

In the absence of activity during the reporting period, the respondent, no later than the end date of the earliest of the deadlines for submitting statistical forms for this reporting period, specified in the approved Schedule for submission by respondents of primary statistical data on national statistical observations for the corresponding year, shall submit a Notification of the absence of activity in the manner prescribed by the Submission Rules respondents of primary statistical data approved by the order of the Chairman of the Agency of the Republic of Kazakhstan on Statistics dated July 9, 2010 No. 173 (registered in the Register of State Registration of Normative Legal Acts No. 6459).

#### S.21.2 Inspection frequency

year

#### S.21.3 Method (method) of collecting primary statistical data

Data collection is carried out in "One window" on paper or in electronic form by filling out the statistical form "Report on the main indicators of the financial and economic activities of the educational organization". It is carried out in electronic form through the use of the information system "Data collection in on-line mode" posted on the Internet resource Bureau of national statistics of the Agency for strategic planning and reforms of the Republic of Kazakhstan ([www.stat.gov.kz](http://www.stat.gov.kz)).

#### S.21.4 Reliability of primary statistical data

In accordance with Article 17 of the Law of the Republic of Kazakhstan dated March 19, 2010 No. 257-IV "On State Statistics", the respondent is obliged to provide reliable primary statistical data when conducting statistical observations in accordance with the schedule for submitting primary statistical data by respondents and with statistical methodology.

#### S.21.5 Imputation - share / A7

Unacceptably.

#### S.21.6 Correction

Unacceptably.

#### S.21.6.1 Seasonal adjustment

Unacceptably.

#### S.22 Notes

In the future, continue to work to ensure data quality.
