-- no phenomenon
0.0 is a minor value

In individual cases, the slight differences between the sum of the sum and the sum of the inclusions are explained by the rounding of the data.

Preface

The statistical collection «Marriage and Family» reflects data on the marital status of men and women aged 15 years and older.

The collection provides information on the marital status of the population, on fertility and child planning, on entering into first and second marriages, on the number and average size of families.

It also contains data by region, city and village, level of education, employment, income level, age and nationality.

The statistical collection is intended for senior management personnel, employees of management bodies and financial and economic services of enterprises, organizations, scientific, entrepreneurial and banking circles, teaching staff, graduate students and students of economic universities, for a wide range of readers who need to receive objective and complete information on the results of the national population census of 2021 in the Republic of Kazakhstan.

The statistical collection was prepared by specialists of the Department of Agricultural Statistics and National Censuses of the Bureau of National Statistics of the Agency for Strategic Planning and Reforms of the Republic of Kazakhstan and the Republican State Enterprise on the right of economic management «Information and Computing Center of the Bureau of National Statistics of the Agency for Strategic Planning and Reforms of the Republic of Kazakhstan».

Content

1. Population by marital status	5
2. Population by marital status and age groups.....	7
3. Population by marital status and age	9
4. Population by marital status and education level	15
5. Population by marital status and nationality	17
7. Employed population by marital status and individual nationalities	29
8. The employed population of certain nationalities by marital status and certain age groups	34
9. Population by marital status	58
10. Employed population by status and individual age groups	59
